GEILIVABLE
Precision is Our Priority

Geili Provide You The Best Solution of Wire Drawing.
www.geilivable.com.cn

**To be a first choice global die's
supplier for wire drawing industry!**

- 1998 ● The Founder of Geili, Mr.Chenfei began working in the field of magnet wire drawing die's industry
- 2010 ● Shanghai Geili Precision Dies Co.,Ltd was established in Songjiang
- 2013 ● Overseas Sales office was established in Osaka, Japan
- 2016 ● Yichang Geili Diamond Industrial Co.,Ltd was established in Hubei
- 2018 ● Developed a partner in Germany and to provide wire drawing dies & technical service for European market.
- 2019 ● Yichang Geili is certificated to ISO 9001 & ISO 14001
- 2020 ● Name of National high tech enterprise are awarded in 2020

Automotive Industry

The Automotive Industry is currently one of the world's major economic pillars, Geili provides the drawing dies for many outstanding manufacturers of Automotive Cable wire, wiring harness, Tire steel cord.

Automotive Industry

Electronics Industry

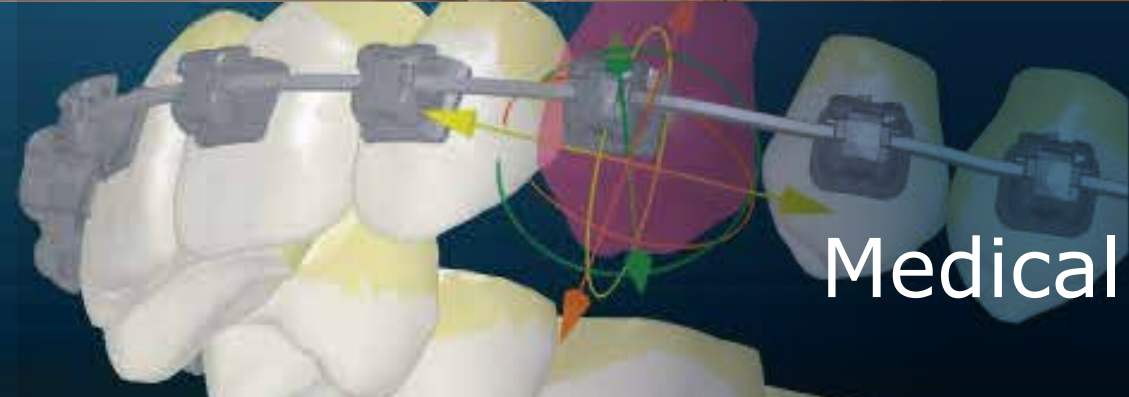

The Electronics products that we are using like: mobile phone, computer, smart watches, Drone, Monitor, lights etc. One of it's micro-motor, voice coil, IC chip and other components which used by the ultra-fine metal conductor, It's Produced by wire drawing manufacturer assisted by Geili's drawing dies.

Electronics Industry

Medical Industry

Medical devices, Endovascular stent, Bone needles, Orthopedic archwire, and other wire and tubing for medical products, from stainless steel, titanium alloy to nickel titanium alloy, Our dies and tools to assist in the production of products that meet the requirements of medical equipment.

Medical Industry

Energy Industry

Energy saving and consumption reduction in China which it's going to the forefront of the world's clean energy utilization, become the largest manufacturer and applications of solar photovoltaic power generation. Geili Drawing dies in the field of photovoltaic cell wafer slicing plays a role that can not be ignored.

Energy Industry

Construction

In recent years, the rapid development of buildings and facilities in railways, bridges, roads, pipelines, residences and public facilities. Geili has played an important role in providing wire drawing dies to reduce production costs for the production of wire and cables in the construction industry.

Construction

Product Categories

Round Wire Drawing Dies

Natural Diamond Dies Single Crystal Diamond Dies
Polycrystalline Diamond Dies Matched Elongation Die Sets
Tinning Dies

Other Dies and Tools

Bunching, Compacting & Stranding Dies
Enamelling Dies
Nano Diamond Coated Dies
Shaped/Profile Wire Dies

Product Service

Die's Recutting & Repolishing & Resizing service
Training Service
Die Room Equipment & Accessories:
Wire Polishing Machine Ultrasonic Polishing Machine
Ultrasonic Die Cleaner Microscope
Wire Drawing Machine

Production Flow

From raw material to finished dies, we achieve full production process coverage.

Product's Service

Die's Recutting and Repolishing

- Recutting die's service from Geili including the products of natural diamond dies(ND), single crystal diamond dies(SSCD), poly-crystal diamond dies(PCD), all recutting die's technology standard is following new dies.
- We pay high attention on the die's elongation matching of the recutting die sets to guarantee die's application and lifespan.

Training of Die's Recutting

- Going to your company or come to our factory for you and your die room technician to have a technical communication, discuss the die's re-cutting, polishing and profile processing to guarantee the practice for die's quality.
- In our factory, you can visit our production process, to learn the basic knowledge of the die's usage and practical training.

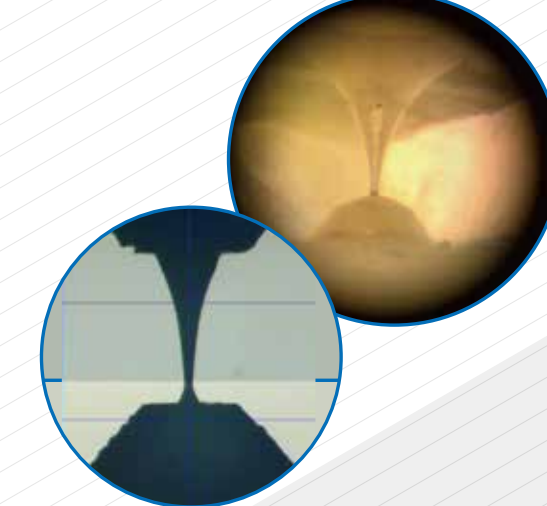

Matched Elongation Die Sets

- By using Geili matching elongation Die sets, reduced wire breaks and improve the performance efficiency of the drawing operation, thereby reducing the cost of drawing.
- Our professional design team calculates an accurate Die set elongation to match your drawing equipment, reducing downtime and improve your production capacity.

Die's Profile Design

Based on your different wire drawing materials, we provide you with a drawing profile design to help you get the drawing requirements you need during the drawing process.

Die Tools and Equipments

Tools

Diamond Powder

Flux

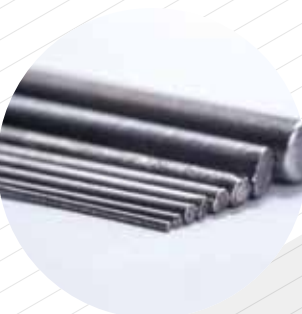

Small cup for mixing diamond powder

Tweezers and Nipper

Silver Welding Needle

Steel Needles

Equipments

Optical Die Profile measuring instrument

Laser diameter measuring instrument

Ultrasonic polishing machine

Ultrasonic die cleaner

Microscopes

Business Cooperation

We have a professional sales team in Europe, North America, Africa, Asia to provide customers from all over the world with a range of wire dies products services.
